1. Target market

Inside the target market

The features of this Product have been assessed as meeting the likely objectives, financial situation and needs of consumers who require a secured loan of between \$50,000 and \$2,000,000, repayable over a term of 15 to 30 years to finance the acquisition of residential property for the purpose of it being their principal place of residence or for investment purposes (or refinance other finance that has been provided for such a purpose) with the ability to obtain an equity release or consolidate debt with:

1. The ability to borrow up to 80% of the value of the property;
2. The flexibility of a variable rate;
3. The option of principal and interest or interest only repayments;
4. The option of an offset account;
5. Access to redraw; and
6. The option of a loan access card.

Whilst there may be fluctuations to variable interest rates, we have assessed this Product as being consistent with the likely objectives, financial situation and needs of consumers in the target market because it allows them deposit funds into an offset account and/or make unlimited additional repayments to reduce interest payable. These funds remain accessible to the consumer.

Outside target market

Consumers outside the target market are consumers that:

1. Require a loan to finance the acquisition of property for construction purposes;
2. Are PAYG or self-employed and can provide full financials;
3. Have material adverse credit; and
4. Are seeking to borrow through a self-managed superannuation fund.

Product description and key attributes

1. Variable interest rate.
2. Offset account is available.
3. Redraw is available on a variable interest rate.

4. Minimum loan amount \$50,000.
5. Maximum loan amount \$2,000,000.
6. Maximum loan term 30 years.
7. Maximum Loan to Valuation Ratio (LVR) is 80%.
8. A risk fee may be payable.
9. Repayment options:
 - a. principal and interest and interest only for owner occupied; and
 - b. principal and interest and interest only for Investment.
10. Repayment frequency for principal and interest repayments – weekly, fortnightly or monthly.
11. Repayment frequency for interest only – monthly.

We may approve exceptions to the above on a case by case basis.

2. Distribution channels and conditions

The Product can only be distributed by Us, directly to consumers (“Direct Channel”).

The distribution channel and conditions are appropriate because:

1. The Product has a wide target market;
 2. Our Direct Channel distributors have been adequately trained to understand their design and distribution obligations and are therefore able to assess whether a consumer falls within the target market; and
 3. Our application and approval process has controls in place to flag consumers who may be outside the target market.
-

3. Review triggers

The following review triggers would reasonably suggest that the target market determination may no longer be appropriate:

1. A significant dealing of the Product to consumers outside the target market occurs;
 2. Material changes are made to the Product terms and conditions, other than changes to variable interest rates and consequential changes to repayments;
 3. A 30% increase in monthly complaint volume for the Product as compared to the average monthly complaint volume for the Product for the prior 6 months; and
 4. A 30% increase in the refinance rate within 6 months of settlement for the Product as compared to the average monthly refinance rate within 6 months of settlement for the Product for the prior 6 months.
-

4. Review period

An initial review of this target market determination will occur within 12 months of the date of this target market determination. This target market determination is then to be reviewed at least every 12 months.

5. Information reporting

Table 5.1 below sets out the information which we require to be reported to us in respect of the Product by persons who engage in retail distribution conduct in respect of the Product. Unless otherwise stated, the first reporting period commences on the date this target market determination is made and each subsequent reporting period commences at the end of the prior reporting period.
