## Applicant 2 / Guarantor

Full name

## DECLARATION

I/We understand the purpose of buying or installing these products outlined at my home is to be more energy efficient, as per the Australian Government definition of being energy efficient is:

**“Being energy efficient means using less energy to achieve the same outcomes (e.g. products and services that allow you to achieve the same outcome while using less energy).”**

## Requirements and objectives

I/We confirm that I/we will only use the funds provided to go towards the following items to improve the energy efficiency of my/our property, secured by Homeloans Pty Ltd (trading as State Custodians).

Select all that apply:

- |  |  |
|--|--|
| <input type="checkbox"/> Battery packs and storage                     | <input type="checkbox"/> Air-conditioning system                                   |
| <input type="checkbox"/> Electrical energy storage                     | <input type="checkbox"/> Energy efficient appliances                               |
| <input type="checkbox"/> Hot water heat pump or solar hot water system | <input type="checkbox"/> Other energy efficient products – please provide details: |
| <input type="checkbox"/> Insulation and/or doubled glazed windows      | <input type="text"/>   |
| <input type="checkbox"/> Solar panels                                  |  |

Once this declaration form has been signed and sent back along with the completed application form, before formal approval can take place, you will need to send a quote to [greenloan@statecustodians.com.au](mailto:greenloan@statecustodians.com.au) for the planned energy-efficient product / works you will be purchasing. After verifying your quote (it should be no older than 30 days and come from a registered business), and any other conditions have been verified, you will receive your loan contract to sign and submit back to us. Once signed and returned, settlement will take place. Once the loan has settled, the funds will be released to your nominated bank account within 72 hours.

I/We confirm the information above is true and correct.

# Energy Efficient Declaration Form

## ENERGY EFFICIENT QUOTE OR INVOICE

I/We enclose:

- A supplier quote of the supply or installation or purchase of energy efficient products – quote must be dated within 30 days
- Invoice issued by the supplier, not older than 30 days
- An installation certificate confirming the size of the solar panel to be provided on request, not older than 30 days (if applicable)

Once this documentation has been sent, assessed, and verified as being energy efficient to our satisfaction\* the loan will settle and the funds will be released into your nominated bank account.

I/We confirm the information above is true and correct.
